Summary

I am a young web developer. I have been actively engaged in programming for 1 year. During this time, I have learned and applied several technologies and approaches to creating web applications. I continuously enhance my knowledge every day and am excited to work on even more interesting projects.

Hard Skills

Python | Django | DRF | PostgreSQL | Linux | JavaScript | HTML5 | CSS | React | php | Git | Bootstrap

Soft Skills

Problem-Solving | Adaptability | Teamwork | Punctuality | Attention to Detail | Resilience | Self-Motivation

Projects

Shoe Shop
Created a full stack application for a shoe store using REST API principles with Django Rest Framework and JavaScript.

Photographer Portfolio
Developed a Django app for an aspiring photographer, enabling blogging, portfolio creation, and other functions using Django templates

Tic-Tac-Toe online
Built an online game using React + DRF. Used websocket and django channels to implement search and gameplay.
